CAREER HIGHLIGHTS

Online Compiler (2021)

Me and one of my friends developed an Online compiler with changeable video background. It's available on twice.team

Game Development (2020 - Present)

I started learning programming with Game development, Since then I've developed and published some games on Google Play, you can find them by searching "pub: twice.team" in Google Play

Programming Contests (2021 - Present)

I enjoy solving programming questions (with JAVA and C++) in my free time. All of my contests are available in my git hub (pouria-007).

Front-end Projects (2020 - Present)

I've also developed and designed some web projects and Games, using only HTML, CSS and JS. all of them available on my website and Git hub.

EDUCATION

University of Debrecen (2021 - 2024)

Currently I'm studying Computer science - BSc (Second semester).

OBJECTIVES

I want to learn new things and develop my computer skills.
