### React Native Learn Korean with Kpop Idols (Gradio)

Aug 2023

I've made a Korean Learning app which supports English, Hindi and German Language. You can learn korean with Kpop Idols sounds which is generated by AI, also watch Kpop shows with your native subtitle.

Google Play : [Learn Korean with Idols](#)

### Windows 95 simulator (HTML, CSS, JS)

Aug 2022

I made this website, because I like to challenge myself and I didn't want a simple and ordinary portfolio.

### Online compiler API (Flask, Linux)

Dec 2021

I made an online compiler API (hosted on pythonanywhere) from scratch using Flask which supports C, C++, Python and Java.
